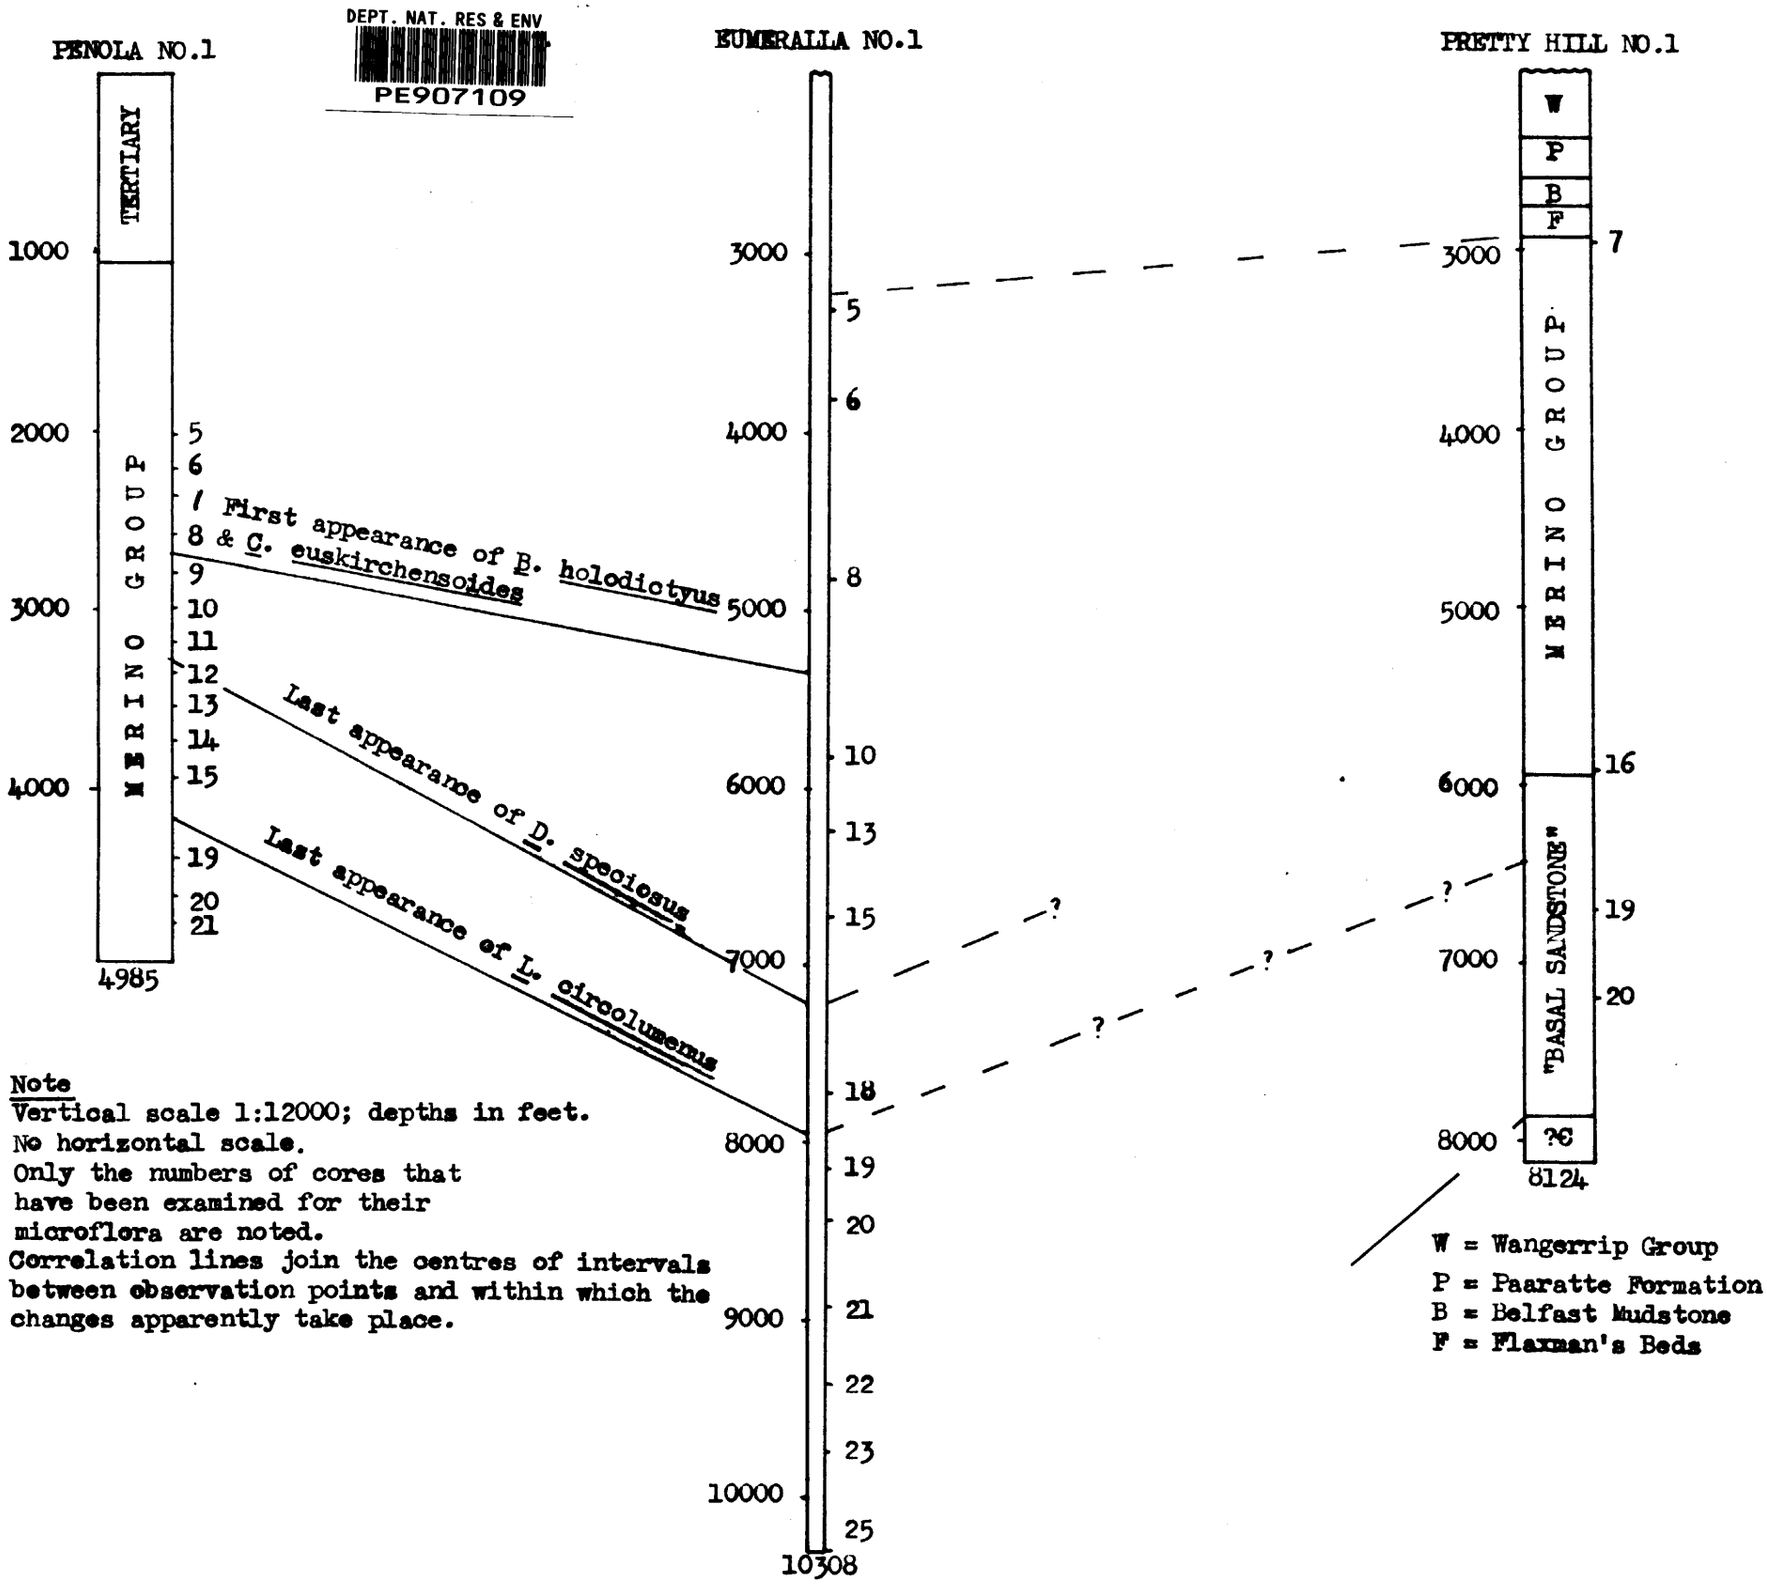
FIGURE 1.

TENTATIVE MICROFLORAL CORRELATION OF THREE SECTIONS THROUGH THE MERINO GROUP OF THE OTWAY BASIN.

DEPT. NAT. RES & ENV
PE907109



Note
Vertical scale 1:12000; depths in feet.
No horizontal scale.
Only the numbers of cores that have been examined for their microflora are noted.
Correlation lines join the centres of intervals between observation points and within which the changes apparently take place.
