

Daily Geology Report

Well Name:		Pritchard 1	
Report No:	6	For date:	1-Apr-06
Days:	6	Midnight depth:	836
24 hr progress:	0		
0600 depth update:	836		
06:00 operation & 24 program: At 06:00 Pritchard-1 was drilling ahead 8 1/2" hole at 855 m in the basal Dilwyn Formation. In the next 24 hrs the hole will be drilled into the Pember Mudstone			
Highlights and Fm tops:			

Interval Descriptions

Comments, or other evaluation reports

BOPs tested successfully. A leak-off test was carried out at 841 m using 8.6 ppg drilling mud. A shoe integrity of 165 psi, equivalent to a mud weight of 1.17 SG (9.8 ppg) was achieved.
