

# KINGFISH-1. SPECIES LIST

DEPT. NAT. RES & ENV  
  
 PE906027

4/4

KINGFISH-1	3000	3500	4000	4500	5000	5500	6000	6500	7000	7500	8000	8500	9000	
<b>ARENACEOUS BENTHONICS</b>														
94. Textularia sp. 2														
95. Ammobaculites sp.														
96. Ammosphaeroidia sphaeroidiniformis														
97. Haplophragdium sp.														
98. Bathysiphon sp. B														
99. Discammina sp.														
100. Gaudyrina convexa														
101. G. heywoodensis														
102. Karreriella bradyi														
103. Reophax sp.														
104. Saccamina sp.														
105. Textularia semicarinata														
106. Vulvulina granulosa														
107. Eggerella sp. (large-smooth)														
108. Trochammina sp.														
109. Ammodiscus sp.														
110. Textularia verbeurani														
111. Arenonodosaria antipoda														
112. Bathysiphon sp. A														
113. Brachysiphon carbiiformis														
114. Haplophragmoides rotundata														
115. Pseudoclavulina rudis														
116. Clavulinoides sp. A														
<b>SPONGE SPICULES</b>														
<b>OSTRACODS</b>														
<b>ECHINOD SPINES</b>														
<b>BRYOZOA fragments</b>														
<b>QUARTZ - angular</b>														
<b>Carbonaceous material</b>														
<b>GLAUCONITE</b>														
<b>PYRITE clustered-spheres</b>														
<b>PYRITE rods</b>
