

PLATE 9: 3369 metres

Reflected Light

This plate illustrates how the asphaltic bitumen occurs along cracks in this siltstone.

Field Dimensions 0.43 mm x 0.29 mm

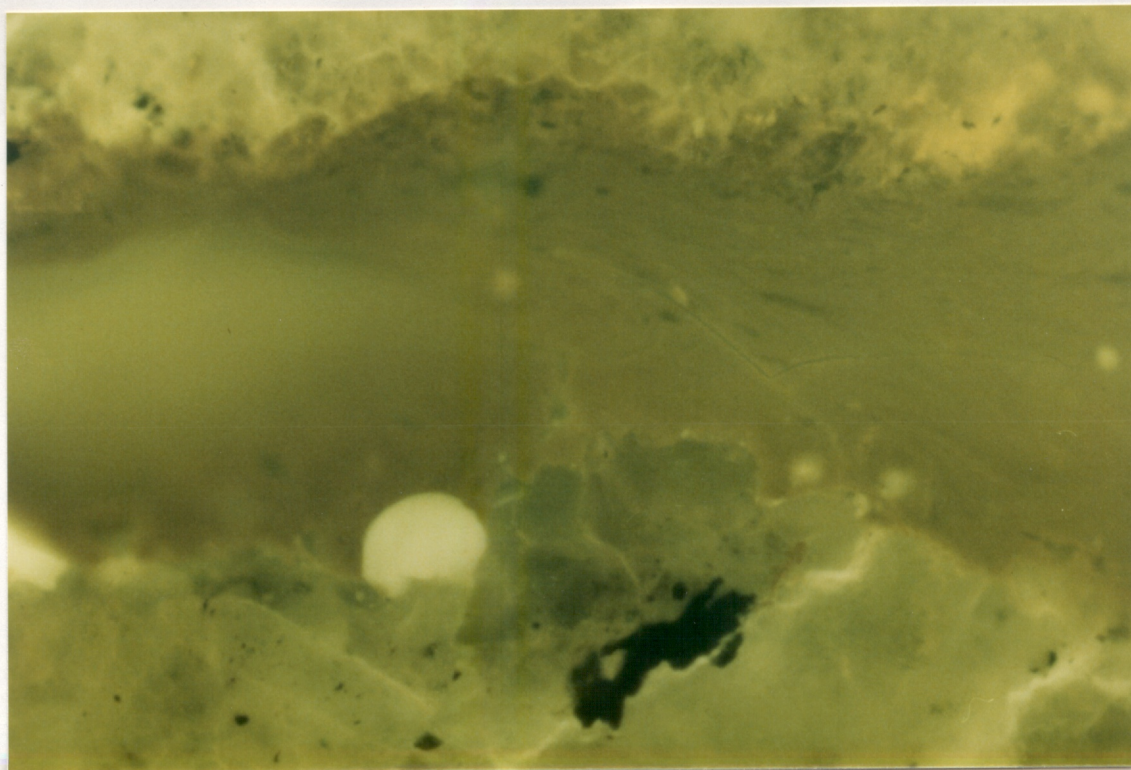

PLATE 10: 3369 metres

Fluorescence Mode

This is the same field as Plate 9 in fluorescence mode illustrating the moderate to dull orange fluorescence of the bitumen and the bright yellow-green fluorescence of oil globules trapped in this asphaltic bitumen.

Field Dimensions 0.43 mm x 0.29 mm
