COMPLETION COREGRAPH

These analyses, permeability measurements are based on observations and material supplied by the client to whom, and for whose account and equipment, the report is made. The interpretations of analyses reported represent the best estimate of core characteristics, as far as data and equipment available, but the Laboratories, and its officers and employees, assume no responsibility and make no warranty or representation as to the accuracy, completeness or applicability of any of the data or other material supplied, or as to the interpretation of such data or other material.
