

PLATE 5: 2656 metres

Reflected Light

This plate shows an exinite-rich clarite containing common sporinite, cutinite and resinite.

Field Dimensions 0.26 mm x 0.18 mm

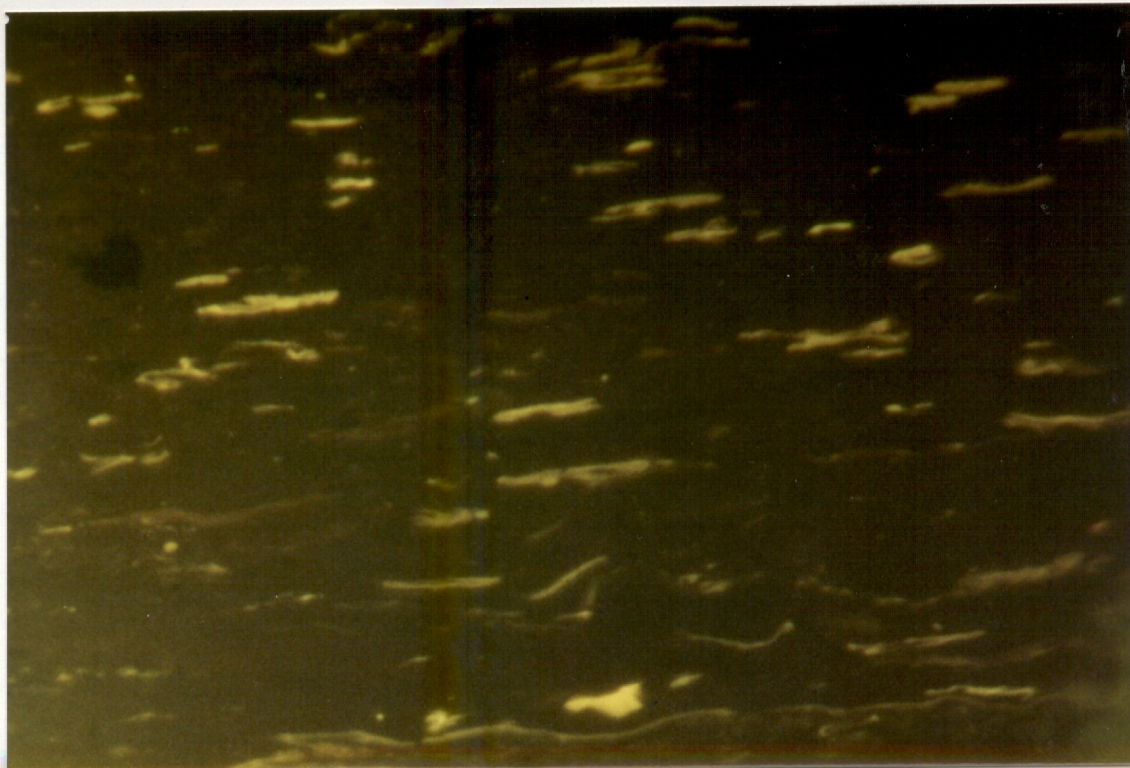

PLATE 6: 2656 metres

Fluorescence Mode

This is the same field as Plate 5 in fluorescence mode illustrating the fluorescence colours and intensities of the exinites in this sample.

Field Dimensions 0.26 mm x 0.18 mm
