

ADMIRAL-1, GIPPSLAND BASIN, PALYNOLOGICAL RANGE CHART 2 OF 2.

SPECIES

LEGEND

- VERY RARE
- RARE
- FEW
- COMMON
- ABUNDANT
- VERY ABUNDANT
- PRESENT
- REMARKED
- CONTAMINANT

DEPTH IN METERS	SAMPLE TYPE	SPECIES																																																																																																														DEPTH IN METERS
1518.3	S	(Species list from chart)																																																																																																														1518.3
1540	D	(Species list from chart)																																																																																																														1540
1545	D	(Species list from chart)																																																																																																														1545
1555.5	S	(Species list from chart)																																																																																																														1555.5
1563.9	S	(Species list from chart)																																																																																																														1563.9
1580.5	S	(Species list from chart)																																																																																																														1580.5
1606.2	S	(Species list from chart)																																																																																																														1606.2
1620.1	S	(Species list from chart)																																																																																																														1620.1
1640	D	(Species list from chart)																																																																																																														1640
1648.5	S	(Species list from chart)																																																																																																														1648.5
1680.5	S	(Species list from chart)																																																																																																														1680.5
1697.5	S	(Species list from chart)																																																																																																														1697.5
1700	D	(Species list from chart)																																																																																																														1700
1728.4	S	(Species list from chart)																																																																																																														1728.4
1749.5	S	(Species list from chart)																																																																																																														1749.5
1750	D	(Species list from chart)																																																																																																														1750
1768.8	S	(Species list from chart)																																																																																																														1768.8
1789.0	S	(Species list from chart)																																																																																																														1789.0
1790	D	(Species list from chart)																																																																																																														1790
1796.0	S	(Species list from chart)																																																																																																														1796.0
1806.5	S	(Species list from chart)																																																																																																														1806.5
1816.6	S	(Species list from chart)																																																																																																														1816.6
1831.0	S	(Species list from chart)																																																																																																														1831.0
1843.1	S	(Species list from chart)																																																																																																														1843.1
1850	D	(Species list from chart)																																																																																																														1850
1858.1	S	(Species list from chart)																																																																																																														1858.1
1870	D	(Species list from chart)																																																																																																														1870
1873.2	S	(Species list from chart)																																																																																																														1873.2
1899.0	S	(Species list from chart)																																																																																																														1899.0
1910	D	(Species list from chart)																																																																																																														1910
1912.0	S	(Species list from chart)																																																																																																														1912.0
1930	D	(Species list from chart)																																																																																																														1930
1936.0	S	(Species list from chart)																																																																																																														1936.0
1961.1	S	(Species list from chart)																																																																																																														1961.1
1972.5	S	(Species list from chart)																																																																																																														1972.5
1988.0	S	(Species list from chart)																																																																																																														1988.0
2010	D	(Species list from chart)																																																																																																														2010
2016.1	S	(Species list from chart)																																																																																																														2016.1
2036.0	S	(Species list from chart)																																																																																																														2036.0
2048.9	S	(Species list from chart)																																																																																																														2048.9
2056.0	S	(Species list from chart)																																																																																																														2056.0
2060	D	(Species list from chart)																																																																																																														2060
2061.5	S	(Species list from chart)																																																																																																														2061.5
2071.3	S	(Species list from chart)																																																																																																														2071.3
2103.5	S	(Species list from chart)																																																																																																														2103.5
2105	D	(Species list from chart)																																																																																																														2105
2160	D	(Species list from chart)																																																																																																														2160

DEPTH IN METERS	TOTAL YIELD (FRAN)
1518.3	1518.3
1540	1540
1545	1545
1555.5	1555.5
1563.9	1563.9
1580.5	1580.5
1606.2	1606.2
1620.1	1620.1
1640	1640
1648.5	1648.5
1680.5	1680.5
1697.5	1697.5
1700	1700
1728.4	1728.4
1749.5	1749.5
1750	1750
1768.8	1768.8
1789.0	1789.0
1790	1790
1796.0	1796.0
1806.5	1806.5
1816.6	1816.6
1831.0	1831.0
1843.1	1843.1
1850	1850
1858.1	1858.1
1870	1870
1873.2	1873.2
1899.0	1899.0
1910	1910
1912.0	1912.0
1930	1930
1936.0	1936.0
1961.1	1961.1
1972.5	1972.5
1988.0	1988.0
2010	2010
2016.1	2016.1
