

ZONE	Diplopora	D. ortholeichus	T. triorites	<i>Triorites edwardsii</i>	<i>Notofogadites</i>	?	<i>Crybalosporites striatus</i>	
	Ortholeichus	T. edwardsii						
AGE	Eocene			Middle Paleocene	Lowermost Tertiary to Uppermost Cretaceous		Lower Cretaceous	Lower Cretaceous to Indeterminable

DISTRIBUTION OF MICROFLORA FROM NERITA - I

LEGEND
 Ab = Abundant - over 5% total microflora
 C = Common - 1% - 5% total microflora
 R = Rare - less than 1% total microflora
 X = Qualitative determination only
