## Stop Card of the Week

### 02 July 2006

ANZON stop card of the week winner is Paul Johns who, using the Stop observation techniques, observed the reversing safety light and beeper on forklift was not working. . Paul inspected the forklift and found the lead from battery had been ripped from the plug and hanging loose. He told the electrician who reconnected the lead. Thanks to Paul for using the Stop philosophy during his everyday work and making sure his equipment and work area was in a safe condition before starting the job.
